

Payment Solutions for SYSPRO

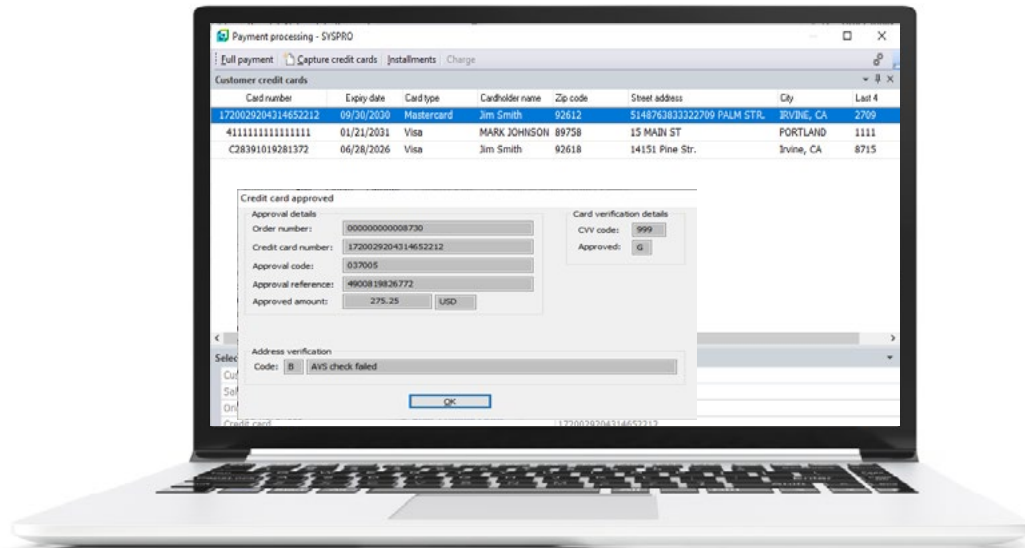

A Simple, Secure, Cost-Saving Solution for Credit Card Processing

Payment Solutions for SYSPRO offers manufacturers and distributors real-time credit card processing for the sales order entry and invoicing functions within SYSPRO. Payment Solutions for SYSPRO helps improve cash flow and reduce bad debts by conveniently collecting payments in real-time or accepting payments for open invoices via credit cards.

STREAMLINED PROCESS

Payment Solutions for SYSPRO works seamlessly with Internet Sales, Sales Order processing as well as the Counter Sales module. It preauthorizes a customer's purchases against a credit card during the order entry process and bills the credit card at the time of invoicing including one-time payments or scheduled installments against an account.

REDUCED COSTS

You are in the business to make money, so it can be frustrating seeing all your hard-earned income going toward fees or being drained by inefficiencies. Integration with Payment Solutions for SYSPRO can help:

- Maximize interchange discounts and reduce transaction fees
- Qualify cards at the lowest possible rates
- Prevent downgrades
- Interchange savings with Level II & III Data
- Account Updater
 - Prevent card declined transactions due to card expiration dates, lost or stolen cards and other account changes.
- Reduced processing costs with ACH (2-3% vs \$0.30 per transaction)
- American Express at reduced rates
- Reduced transaction costs with PIN Debit
- Increase productivity, thereby reducing overhead

CUTTING-EDGE SECURITY

Keeping your business information and your customers' business information safe and secure is of the utmost importance. Payment Solutions for SYSPRO helps you minimize any risk or liability with its leading-edge security solutions:

- Data encryption and tokenization for maximum security
- PCI Level I Validated Service Provider
- Off-site cloud-based storage for customer card information
- Point-to-Point Encryption
- Secure Hosted Solutions
- EMV-certified Terminals and Pin pads

ADDITIONAL FEATURES

Here's what else you can expect from SYSPRO's end-to-end payment solution:

- Reduce risk of non-payment by pre-authorizing credit card at time of order
- Automatically bill the credit card at time of invoice
- Accept payment for outstanding account balances
- Accept deposits while placing an order (requires Counter Sales module)
- Immediate notification of acceptance or denial
- Efficient integration updates SYSPRO in real-time
- Save time and reduce data entry errors
- Minimize fraud with Address Verification Services (AVS), Retail AVS, CVV2, CVC2, and CID
- Payments can be made in installments with a variable number of installments and payment dates
- Freight, miscellaneous charges and tax can be included in the first installment or spread over the number of installments
- Store credit card information for multiple cards per customer via tokenization
- Authorized transactions display authorization codes and verification of installment information
- Reason for denying cards is displayed, allowing the user to re-enter information or choose another card
- Cater for counter sale orders and standard orders
- Allow for on-line, batch and installment transaction processing
- Archive up to nine years of transactional history
- Different user ID logins may be set up for each Branch within the same SYSPRO Company ID
- Next day funding
